

HEAT STROKE IN DOGS

KNOW THE SIGNS

How to keep your dog cool on hot days

Always give your dog access to drinking water.

Ensure outside dogs have access to shade.

Avoid hot sand, concrete or asphalt areas where heat is reflected and there is no access to shade.

Place a circulating fan near your dog to cool them down.

Don't leave your dog in a car unattended at any time.

Restrict exercise activity in hot weather. Early morning or evening is best.
