

# Moving our economy from linear to circular shifts the focus from high consumption and high waste, to simply do more with less.

To find ways to keep using things, rather than using them up. To keep materials in use, keep products in use and treat waste as a resource.

## Businesses can benefit by:

Unlimited resource listings

Marketplace to list excess waste materials

Unlimited technical support

Free marketplace to list items that contain recycled content

ASPIRE Member certification

Direct message feature to communicate with buyers & sellers

Access to ASPIRE Community

ASPIRE messaging mailbox to track all communications

Promotional Material for your network

Create new business models and supply chains

Feature Case Studies in the ASPIRE Newsletter

Divert excess waste & resources from landfill

Detailed reports tracking CO<sub>2</sub> savings, waste diversion, revenue & resources exchanged

Create new revenue streams

Compare business departments and their outcomes

## An Online Marketplace for the Circular Economy
