

5.3 Recognising 30 Years of Service to Our Community

Recommendation

That the information be noted.

I would like to take this opportunity to recognise our General Manager, Lindy Deitz who on 12 July 2023 will mark 30 years of service with Campbelltown City Council.

Lindy commenced her career with Council utilising her nursing qualifications and passion for community to support the programs being delivered in our childcare facilities. Through this role, she was particularly focused on supporting the needs of children and families in social housing communities. This early introduction to community has shaped Lindy's ongoing career and commitment to the people who call Campbelltown home.

Following her time on the front line working directly with community, Lindy went on to lead Council's Education and Care Services before being appointed to the role of Director Community Services in 2005. In 2015, Lindy was appointed as the first female General Manager of Campbelltown City Council.

Lindy has witnessed significant change to our city and organisation over the last 30 years, with our population and workforce increasing and the face of our city continually changing. As Campbelltown has moved from a city on the fringes of Sydney, to our role as the centre of the Macarthur and a critical part of the South West Sydney story, Lindy has played an important role in this and her commitment to our city is evident.

Lindy is passionate about Campbelltown and a tireless advocate for the needs of our residents. She works closely with Councillors, staff, community, industry and Government to ensure Campbelltown is recognised and continues to thrive.

On behalf of Councillors, staff and the wider Campbelltown community I would like to thank Lindy for her service and commend her for her contributions to our city over her long and successful career.
