

We're home to an abundance of pristine bushland and native wildlife.

We aim to conserve our backyard with community led initiatives.

Two programs you can join are

**Land for Wildlife**

and our

**Koalatown Certified Properties.**

**KOALATOWN**

# PRIVATE LAND CONSERVATION

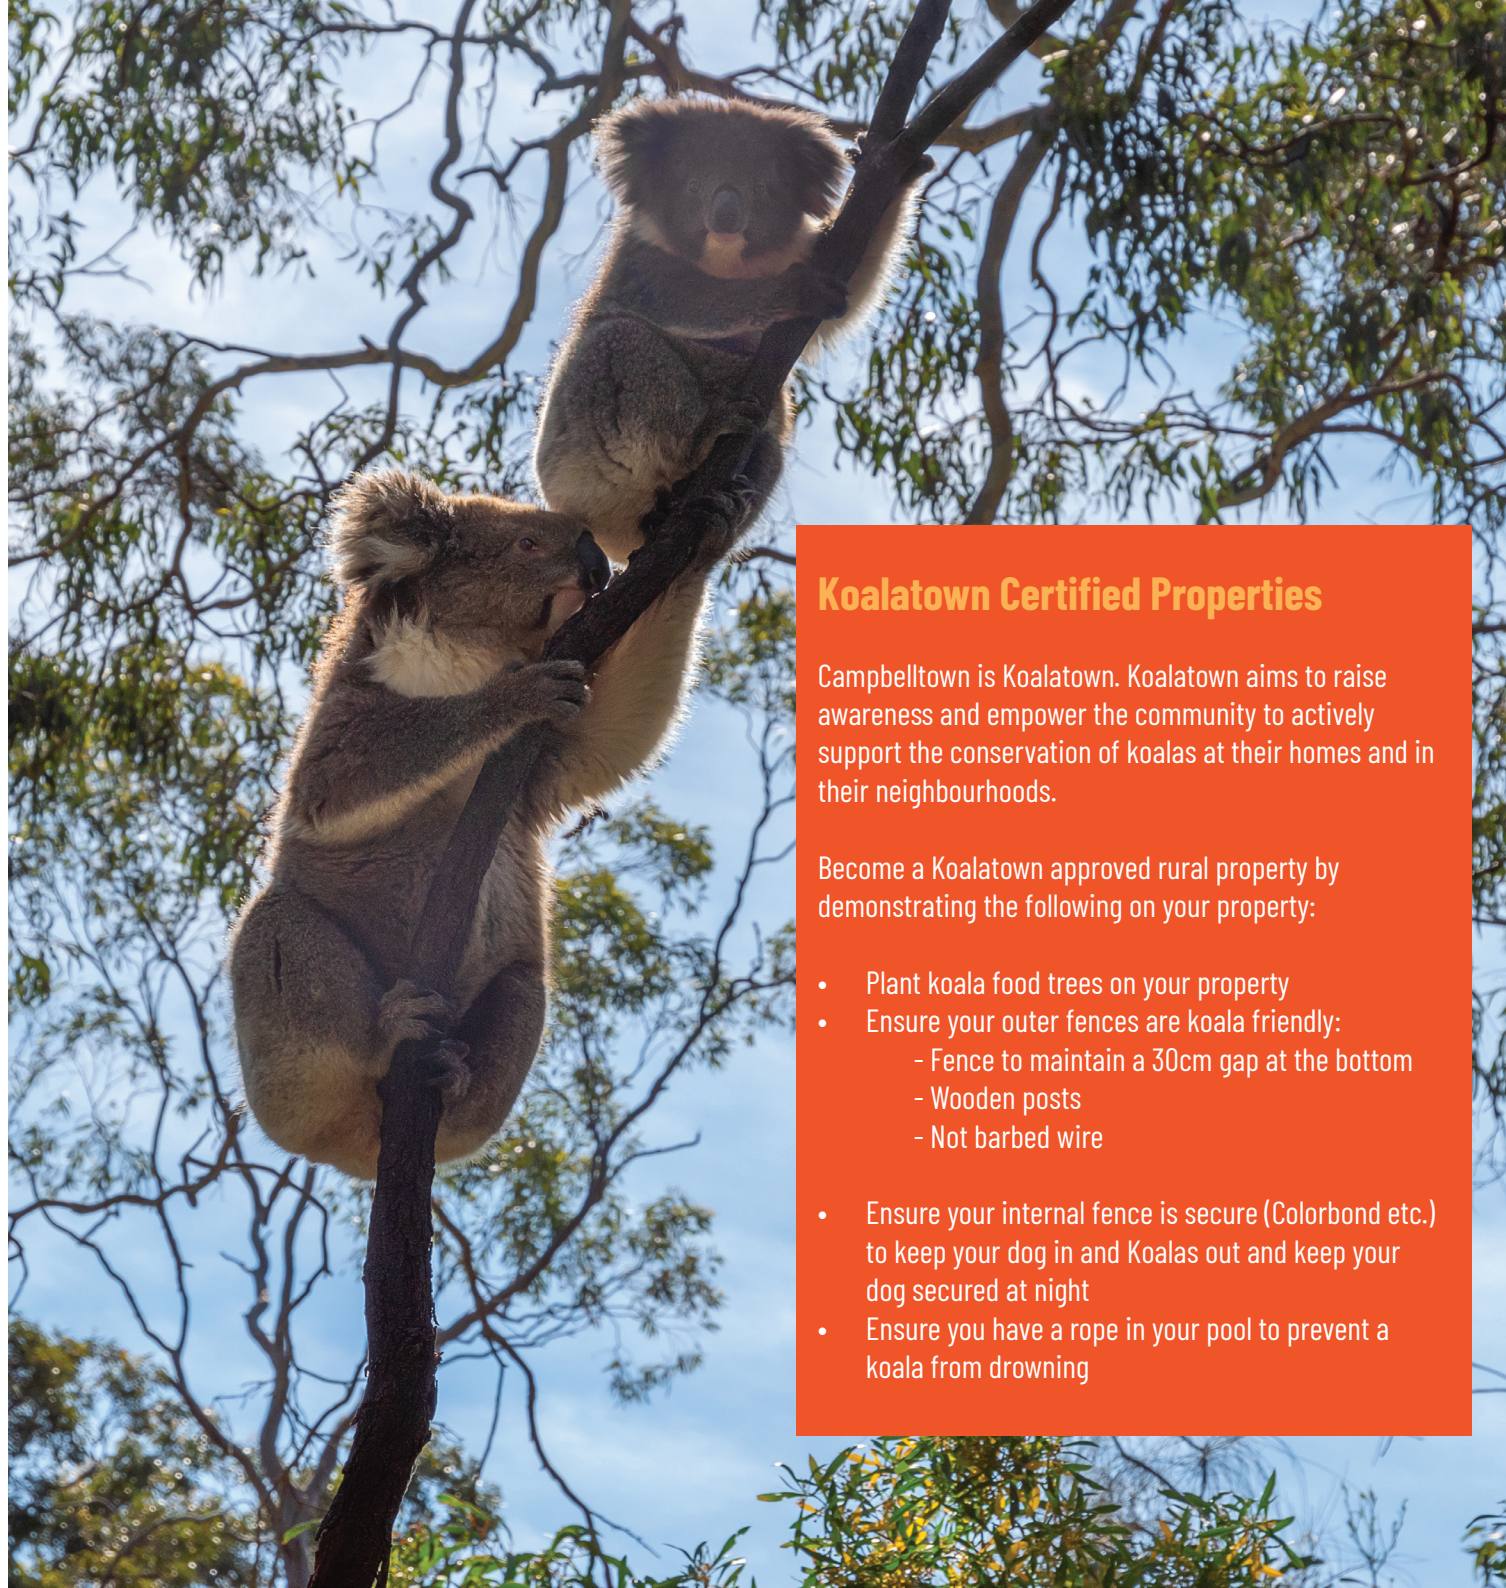

## Land for Wildlife

Land for wildlife is a voluntary program, encouraging landowners to register their property to help conserve wildlife habitat in their backyard.

Co-ordinated by the Community Environment Network with Campbelltown Council delivering regional support, we will conduct site assessments, suggestions on management and support.

Program benefits include:

- Eligibility for grants to enhance your property for nature
- Access to education programs and activities
- Connections to network with other members
- Relevant news for management issues
- A sign for participating property owners

## Koalatown Certified Properties

Campbelltown is Koalatown. Koalatown aims to raise awareness and empower the community to actively support the conservation of koalas at their homes and in their neighbourhoods.

Become a Koalatown approved rural property by demonstrating the following on your property:

- Plant koala food trees on your property
- Ensure your outer fences are koala friendly:
  - Fence to maintain a 30cm gap at the bottom
  - Wooden posts
  - Not barbed wire
- Ensure your internal fence is secure (Colorbond etc.) to keep your dog in and Koalas out and keep your dog secured at night
- Ensure you have a rope in your pool to prevent a koala from drowning
